

Innovating with Challenge Day Partner

21 November 2019

Clean Energy:

Discovering Commercial Opportunity

Lismore, New South Wales

Businesses from in and around Lismore are invited to participate in the National Innovation Games Challenge: Clean Energy, Discovering Commercial Opportunities to develop innovation for their business around how they might find commercial opportunity in transitioning to cleaner energy options. Participating businesses are assigned dedicated multidisciplinary innovation teams made up of students and corporate sponsor, EnergyAustralia employees to address the Challenge. topic on behalf of your business.

- All IP generated by your team is wholly owned by your business.
- Solutions are presented to a panel of judges at the end of the day with the top three teams winning great prizes including energy credits towards your bill.
- The Challenge is fully funded and completely free for businesses to participate.
